

Helping You
GROW

The American Cancer Society reported the estimated number of new cancer cases in the U.S. in 2025 to be 1,053,250 for men and 988,660 for women.* With stats like these it's important to consider how Worksite benefits can help pay for costly medical care.

What is Critical Illness Insurance and how can it help?

Critical Illness Insurance is a Worksite benefit product that can help pay for treatments not covered by health plans. It pays a lump sum benefit upon diagnosis of a covered illness.

Critical Illness benefits may be paid for any number of conditions, including, but not limited to:

- Cancer
- Heart attack
- Stroke
- Major organ transplant
- Kidney failure

Kansas City Life Group Benefits offers Critical Illness Insurance coverage with the flexibility your clients need at an affordable price. Contact your Kansas City Life **group sales representative** for more information today.
